Welcome

I am delighted to present our 2023 catalogue, full of all the great products you have come to expect from Dexam. It replaces and includes all the lines that were presented in our 2022 and 2023 supplements and also many new ones for the year – all flagged with the Dexam heart.

A key focus this year is on sustainable products, from recycled cotton textiles that use off-cuts that would have ended up in landfill (see pages 96-97), to Sistema's new Ocean Bound Plastic range (page 202). This also extends into our cookware where our terracotta collection continues to grow. We've added a chicken roaster, bread baker and cheese baker for 2023 (see page 24). So whether you're looking to cook the perfect tender and moist roast chicken every time, enhance garlic's sweet and nutty flavours or store your salt and garlic in tip top condition, look no further than our range of traditional terracotta vessels.

Summer and Christmas have now become a permanent fixture amongst the pages of our catalogue – keep an eye out for new additions to these eye-catching ranges. One of the most exciting projects this year is our Sintra collection (page 16 onwards). Enjoy outdoor dining with our multi-coloured glazed terracotta pieces, mango wood salad bowls and servers and matching napkins and placemats. Perfect for alfresco entertaining this summer and to brighten up the dinner table indoors.

Our Mr Fox and Spike collections (page 131 onwards) have grown and two new colours have been added to these popular characters on herb pots, cake tins, worktop savers and more. Plus we venture into glass storage and serving dishes (see page 132).

What can be more iconic than British breakfast favourite Kellogg's? We're super excited to be collaborating with this amazing brand to bring you new vintage style aprons and tote bags with Tony the tiger, the Cornflakes cockerel, Snap, Crackle and Pop and more (from page 169) plus a new range of Pop Art inspired designs!

We've also been working hard with the School of Wok to launch a new range of accessories for Asian cooking from a series of specialist knives (page 179) to the essential spice Dabba and more.

Please come and visit us at Exclusively Housewares in June. If you can't make it there, the doors of our newly completed showroom in the South Downs National Park are always open. Don't be a stranger.....please come and visit! Our showroom allows you to see every single one of the great products within the pages of this catalogue. Contact us to make your appointment for your visit, or to arrange a virtual tour. The last 24 months have presented numerous challenges to us all but behind

the scenes we have been working hard to ensure our new product development continues apace. Not everything we're launching for 2023 will find its way into these pages so keep your eyes peeled for more exciting news to come!

We are grateful for the support of our customers and other stakeholders and are excited to work with you in the future. Excellent customer service is at the heart of all that we do.

Bryony Dyer
 Managing Director

We were delighted to win Excellence in Service and Excellence in Product Development at the Excellence in Housewares Awards 2022. This is a great recognition of the hard work that goes on behind the scenes sourcing and developing all that you see in the pages that follow.

Our principles

Throughout the years, our principles have remained the same: innovation, reliability, friendliness and, above all, customer service. More recently, we have added to that list a determination to act as sustainably as possible.

Innovation

We love style but not at the expense of functionality. Over 60 years of experience goes into products that look and work beautifully.

Reliability

What we do, we do well. Collectively, we take pride in our work, and want to ensure our products are truly exceptional.

Customer service

We are famous for being 'Dexam'. We are a friendly company that is all about people. We aim to give the best service in the industry and get the best out of everything and everyone.

Sustainability

We are passionate about reducing our impact on the environment. We support British manufacturers and we are enthusiastic about reducing our carbon footprint.

Our partners

In addition to our Dexam branded products, we work with a number of brand partners through licensing and distributorships.

New showroom

In 2021 we moved office spaces and have a brand new showroom. Our beautiful showroom, in the heart of the South Downs National Park, allows you to see every single one of our great products.

Easy ordering

Our trade website has everything you need to easily place an order. Contact one of our friendly sales team to help set you up with an account today.

trade.dexam.co.uk

Quick dispatch

At the end of 2021 we re-racked and re-configured our warehouse. Along with greater storage capacity, the new layout provides extensive pick face capacity, speedier bay fill and order fulfilment and faster and more effective customer despatch.

our collections

We've pulled together a selection of Dexam products in this catalogue so you can see our co-ordinated collections in one place. Each has a distinct story.

Discover Portugal with our colourful Sintra glazed terracotta collection - perfect for outdoor and indoor dining. Or create the ultimate outdoor party with our Summer Garden collection.

Savour mouth-watering bold fruits to brighten up your kitchen with our retro 70s-inspired Orchard Fruit collection.

Our Bees Knees collection is inspired by the importance of bees to our ecosystem. And why not take a look at our selection of fish preparation tools, serving accessories and kitchen textiles in our Fish collection.

Bees Knees

Inspired by the importance of bees to our ecosystem. Our charming textiles, sustainably sourced mango wood accessories and metal storage will look great in both modern and country kitchens.

We are a proud supporter of the Bumblebee Conservation Trust and when you purchase a product from our Bees Knees collection we will donate 2% of the retail price to the Bumblebee Conservation Trust.

People in Portugal have worked clay for many centuries – it can be argued glazed terracotta originated here. Travel the country and one can find glazed tiles and pottery everywhere: on churches, palace façades in houses, restaurants and gardens.

Sintra is a place in Portugal best known for its beautiful landscape, an hour's escape from the city. Think mystical gardens and century-old trees on a historic hillside sprinkled with stone-walled taverns and multi-coloured facades.

Our Sintra collection brings the magic of this place to your home where you too can create a beautiful escape in your very own garden. Enjoy outdoor dining with our multi-coloured glazed terracotta pieces, mango wood salad bowls and servers and matching napkins and placemats.

Terracotta is one of the oldest materials used to make cooking vessels. Formed from pottery clay, terracotta vessels can be used for slow cooking, stewing, baking and broiling because of its extraordinary properties of retaining warmth, moisture, and nutrients well.

For 2023 our terracotta range has been extended to include vessels to bake bread, cheese and roast chicken. Replicating traditional brick ovens and vessels of the past.

Forest and Forge knives

An exquisite British made collection of superior knives. Made from the highest quality steel for sharpness and longevity.

The handles come from responsibly managed forests in North Yorkshire using wind damaged boughs. Each handle has its own personal grain.

Hand wash only.

We offer a blade engraving service for your customers. To personalise a knife please call us on 01730 811811, or email sales@dexam.co.uk

Kindness is a simple way to help everyone. When we are kind to each other, it helps us to feel connected, which means we forge new friendships or deepen existing ones.

Research has shown that when we're kind, when someone is kind to us or even if we just witness kindness, our bodies release feel-good hormones which lift our mood and make us happy. Kindness isn't just a nice thing to do, but can help us improve our own mental health and wellbeing.

To celebrate this and champion mental health, we've developed this limited edition range of tea towels that make fun gifts - guaranteed to put a smile on yours and everyone else's face!

Made from 60% recycled cotton from offcuts which would have otherwise ended up in landfill.

Luxuriously soft organic cotton yarn, thick ply weave printed in a contemporary fern design. The natural muted hues add a touch of sophistication to bespoke kitchen interiors.

Made from organically grown cotton yarn which is kinder to the environment as it uses less water, reduces soil erosion and does not use hazardous manmade pesticides. It also benefits the farmers who can grow additional crops alongside the cotton and maintains the biodiversity of the soil.

Do you care what you wear, like the idea of bottles made into bags and plastic made into pinnies?

Our reusable bags and aprons are made from recycled plastic bottles via a process which turns the plastic into a durable and practical fabric called RPET (Recycled PolyEthylene Terephthalate).

The world's two biggest plastic pollution issues are single use plastic bags and plastic bottles. It takes at least 450 years for a single plastic bottle to decompose and billions of plastic bottles are sent to landfill all over the world every year.

The plastic bottles we use are collected from recycling sites. Ethical production is fundamental to the integrity of our products.

Shows how many bottles it takes to make each product

Textiles: Butchers Stripe

MADE IN ENGLAND

Rushbrooke's kitchen linens have been traditionally made in England since 1837.

Originally made for the butchers of Smithfield Market in London, the Butchers Stripe is now the choice of professional cooks around the world.

The discharge printed stripe cloth offers clean sharp lines with durable, bar-tacked stress points.

Designed to perform

scion

According to our dictionary, the word 'Scion' has two meanings: 'a young shoot or twig' or 'the descendent of a notable family'. Scion was conceived for modern living and filled a gap in the market for fresh and individual home products.

Mr Fox was born and quickly became one of the most iconic designs of the decade. Scion is proud to be a very British brand. Their designers work from a studio in Leicestershire and we only use factories we know well and trust for their commitments to the environment and sustainability.

Dexam are delighted to partner with Scion to bring a stunning range of kitchen textiles, complemented by scales, work top savers, hot pot stands, spatulas, storage and much much more.

Crafted from shatter-resistant borosilicate glass that is hard-wearing but also recyclable, it can be used to store virtually anything from food to hot or cold drinks.

Our glass bottles come with a colour coordinating silicone band to protect hands and also the bottle from knocks and bumps, and a leak proof bamboo lid.

The storage jars come in 3 sizes and are sealed by an air-tight silicone banded bamboo lid.

Our glass storage containers are designed to be used in the oven, microwave, freezer or dishwasher (without lid) and come in two shapes, rectangular and round. Their bamboo lids can also be used as a hot pot stand when serving directly from oven to table.

rhs

The Royal Horticultural Society (RHS) is the UK's leading gardening charity, founded in 1804. Their vision is to enrich everyone's life through plants and make the UK a greener and more beautiful place. Taking inspiration from some of the thousands of botanical images held in the RHS' world-famous Lindley Collections, the RHS by Dexam collection ties in with Dexam's commitment towards a more sustainable world.

© The Royal Horticultural Society. Trade marks of the Royal Horticultural Society (Registered Charity No 222879/SC038262) and used under licence from RHS Enterprises Limited.

This range has been inspired by the true beauty of nature. The design has a stone background, with a heritage inspired design featuring foliage and birds in teal, pink and yellow. The modern colours will brighten up any kitchen and the range is available in an adult apron, set of 2 tea towels, double oven gloves and peg bag. Perfect for all garden and nature lovers.

The prints were sourced directly from The Royal Horticultural Society Lindley Collections which houses the world's finest collection of books and printed materials on gardening and outstanding collections of archives, photography and botanical art.

Gertrude Jekyll (1843–1932) laid the basis for modern garden design and is credited with popularising an informal, naturalistic look in counterpoint to the rigid, formal landscapes of the Victorian era. She created some 400 gardens in the UK, Europe and America: a remarkable output. Her influence on garden design is pervasive and persists to this day.

We wanted to celebrate her influence in our new organic cotton textile range in collaboration with the Royal Horticultural Society. The new range uses a tile pattern from the marble pavement of the Duomo in Milan. It is contrasted with a floral and leafy spray design, which is reproduced and repeated. Both were taken from Jekyll's 'Designs for Carving' scrap book, dated 1866-1911.

Our Sunflower range has been designed using an iconic sunflower and a bee print, sourced directly from The Royal Horticultural Society Lindley Collections which houses the world's finest collection of books and printed materials on gardening and outstanding collections of archives, photography and botanical art.

Sunflowers are known for being "happy" flowers and bumblebees love the nectar they produce and pollinate them. It's not surprising that they are also popular with humans too making it the perfect print to bring sunshine into our homes.

The Benary Vegetables collection has been designed using the unique vegetable prints produced by renowned horticulturist and botanist Ernst Benary (1819-1893). Sourced directly from The Royal Horticultural Society Lindley Collections which houses the world's finest collection of books and printed materials on gardening and outstanding collections of archives, photography and botanical art.

Our beautiful vintage and colourful print is based on the chromolithograph plates of a variety of vegetables such as carrots, peas, beetroot, cabbages to name but a few.

The RHS mistletoe collection has been designed using a unique mistletoe print sourced directly from the Royal Horticultural Society Lindley Collections. It houses the world's finest collection of books and printed materials on gardening and outstanding collections of archives, photography and botanical art.

Mistletoe is often associated with the tradition of kissing someone you love underneath a sprig. We think it makes a fresh and sophisticated print for kitchen accessories and not just for Christmas but all year round.

Featuring the colourful Carrots design, this Home Grown range has been designed with the environment in mind.

The lunch bags, backpacks and aprons are made from recycled plastic bottles via a process which turns the plastic into a durable and practical fabric.

The lunch boxes are made from bamboo fibre. Bamboo is renewable, biodegradable and grows quickly without fertilisers. It is also naturally antibacterial so perfect for holding food.

kelloggs

Over the last century Kellogg's has become a British breakfast favourite. More than 100 years ago, their founder, W.K. Kellogg, saw the promise in a single grain. Through his passion and commitment to nutrition, Kellogg's Corn Flakes® were made, and an industry was born.

Today nutrition continues to be the core of their business. And cereal is an integral part of how they can help to meet the nutritional needs of people all over the world. Their archive contains over one million pieces of artwork collected since the foundation of the company including iconic characters, cereal packaging and imagery and we are delighted these can live on today in new products.

School of Wok

Our partnership with the charismatic Jeremy Pang from Covent Garden's School of Wok goes from strength to strength. We have created a wonderful collection of woks, accessories and kitchen textiles to enable enthusiasts to practise the art of Asian cookery with excellence from the very start. Hugely talented, Jeremy comes from three generations of Chinese chefs, and is a passionate advocate of the importance of education in excellence.

From the outset, the School of Wok team have imposed their exacting standards on each product within the collection, so that everything does what it should do, in the very best way. The woks come with comfortable bamboo handles, for example, and the tools are created at the perfect angle for use in stir-fries. The range is suitable for all hob types.

The School of Wok collection is an uncompromising reflection of Jeremy's knowledge of the Asian kitchen. As he likes to say: 'Learn. Laugh. Eat.'

chasseur

We believe that there are some things which simply allow no compromise and, for us, French cast iron cookware is one.

Manufactured in the Ardennes region of France, Chasseur has been producing exquisite quality cookware for almost a century, each piece double-enamelled and checked for quality by a skilled human being, not a robot. From the most gastronomic region in the food capital of the world, every piece of Chasseur is a true original and is made from over 40% recycled material.

Why choose Chasseur?

Made in France – with PASSION

We believe the skills and processes found there ensure a superior product, no matter how much cheaper we could do it elsewhere. Chasseur's foundry has almost a century's experience in casting and enamelling, and we've worked together for over 25 years.

Highest Quality

Both the foundry and enamelling plant operate under the strictest quality standards, where each piece is inspected at every stage.

Durable

We seal the rims with an enamel primer coat, to greatly increase durability, before adding the coloured top-coat which is both durable and easy to clean.

why choose

Self-basting Lid

Concentric rings on the inside of the lids are designed to channel the steam into drips that baste your food.

Smooth Base

The bases are covered in extremely smooth enamel which means the cookware is suitable for all hob types, including induction.

Environmentally-friendly Manufacture

Each Chasseur item is made from over 40% recycled material; each mould is broken down and re-used; and a state of the art filtration system reduces potential pollution.

Home Delivery Service

Cast iron cookware is heavy! To help our retailers sell more, we offer a home delivery service for any of your customers buying Chasseur. UK delivery costs £7.00 for any number of pieces.

Lifetime Guarantee

All pieces have a lifetime guarantee. That's how confident we are in the manufacturing process and quality control at the foundry.

Enhancements to a Classic Range

Our casserole design incorporates larger, more ergonomic handles for safer lifting, a more rounded, curved interior base for easier stirring, a lid that highlights the brand and its French origin, and finally, a stainless steel lid knob as standard.

Chasseur?

Colours

Just about every item is available in black, the colour chosen by most professional chefs. We also offer a selection of cast iron cookware in chilli red and limited edition colours.

Invicta designs and manufactures traditional cast-iron casseroles and other items to delight those who love authentic, characteristic flavours associated with slow cooking.

This is no longer a secret; cast iron is the ideal material for cooking since it can spread and retain the heat evenly for a long duration of time.

The taste and aromas of a slow cooked cast iron dish remain intense and the natural colours of foods are naturally preserved - Made in France.

chef's choice

Most of us dream of retiring at 65. Not Dan Friel. When he retired after a 40 year career at the Dupont Corporation at that age, he set up Chef's Choice and spent the next 27 years turning it into one of the world's greatest knife sharpening manufacturers.

Dan died in 2012, aged 92, actively involved even in his last weeks. His legacy lives on and thrives in the collection of world class manual and electric sharpeners that Chef's Choice still produce in Delaware.

**'One of the
world's greatest
knife sharpening
manufacturers'**

Chef's Choice manual knife sharpeners use 100% diamond abrasives to produce a sharper, long lasting knife edge.

Each stage sharpens both sides of the knife blade simultaneously.

All models are safe for quality knives and are designed to be used by both left-handed and right-handed users.

Chefs Choice 476 2-Stage Compact Manual Knife Sharpener - Black

13847600

Compact, sleek, contemporary style two stage sharpener to quickly and easily sharpen and hone.

High quality tungsten carbide sharpening elements create the initial bevelled edge and ceramic rods polish the bevel for a superior sharp, durable edge.

Lightweight and very compact: stores easily in drawer, tackle box or backpack.

Use right or left handed. For straight edge kitchen, light sports and pocket knives.

Soft touch handle for a comfortable and secure grip.

9.5cm long

Blister packaging

sistema

Sistema is the Italian for 'system', a system of well made, beautifully designed, stackable food storage to aid an organised kitchen and food on the go.

The entire Sistema range is BPA and Phthalate free and dishwasher, fridge and freezer safe.

Made in New Zealand.

**‘Beautifully designed,
stackable food
storage to aid an
organised kitchen
and food on the go’**

Made using 50% ocean bound plastic, helping decrease plastic waste that is at risk of being flooded into the ocean.

Plastic waste is collected from waterways, beaches and shorelines to prevent it from ending up in the ocean.

The collected plastics are cleaned and refined via recycling process, then mixed with virgin plastic material. The combined plastic materials are moulded into high quality food-grade products that Sistema are known for.

Available in mixed cartons of Teal Stone and Mountain Blue.

The Dexam Terms and Conditions of Sale are listed in detail in the back of our Price List, but just in case it isn't handy at the moment, here is some of the information you may need:

Orders

Orders may be made online, or sent to us by email or fax. And, of course, there will always be a cheerful team in Midhurst ready to answer your calls and take orders. Our office hours are 9am–5pm, Monday–Friday.

Carriage paid orders for UK delivery are £200 net and below this a charge of £10.00 applies.

Our website trade.dexam.co.uk is full of product information, images and is ready for on-line ordering. If you haven't done so already, just give us a call to set up a trade log-in.

Back orders

If you have asked us to set up your account to accept back orders, then once the product is in stock it will be released for despatch: **either** when you place a new order **or** before you place a new order if your back order reaches an agreed stock value.

Sales office

To contact our Sales office please call 01730 811811, fax 01730 811899, or email to sales@dexam.co.uk

Payment terms

Payment terms are 30 days. Payment may be made by bank transfer or cheque.

Accounts payable

Accounts payable can be contacted by email to sales.ledger@dexam.co.uk
